

Orbit Digital - Proposal

Response to RFP-2026-017: Cloud Procurement Analytics Platform for Northwind Retail Group
Submission date: 2026-02-28 | Fictional document for classroom use

1. Executive Summary & Understanding of Requirement

Orbit Digital brings 15 years of procurement transformation experience and more than 40 analytics deployments for retailers across Europe and North America.

We understand Northwind seeks improved spend visibility and supplier management across its business units.

2. Proposed Solution & Implementation Approach

We will implement our OrbitSpend analytics suite, a mature product used by large retailers. OrbitSpend will integrate with Northwind's existing systems as needed; the integration approach and connectors will be finalised during the discovery phase.

The platform is hosted on Google Cloud and supports enterprise data volumes.

3. Timeline, Team Structure & Milestones

Phase	Timing	Milestone
Discovery	Weeks 1-6	Requirements confirmed
Implementation	Weeks 7-20	Platform configured
Go-live	Weeks 21-24	Go-live

Team: Account director, project manager and consultants from our retail practice, sized after discovery.

4. Pricing

Item	Cost (USD)
OrbitSpend licence (3 years)	\$450,000
Implementation services (estimate)	\$320,000
Integration (estimate, to be confirmed)	\$90,000
Support (3 years)	\$105,000
Total	\$965,000 (estimate)

Assumptions:

- Integration and implementation costs are estimates until discovery is complete.
- Travel expenses billed separately.

5. Security, Compliance & Risk Controls

- ISO/IEC 27001 certified. Data encrypted at rest and in transit.
- SSO supported. Hosted in Google Cloud europe-west regions.

Risk management:

- Standard project risk management applies.

6. Support Model, Experience & References

Support: Business-hours support with 8-hour response for critical issues; customer success reviews twice a year.

Relevant experience: Over 40 procurement analytics deployments since 2011, including 12 retailers with more than \$1B annual spend. Winner of the 2025 Procurement Tech Excellence Award.
